

*Amendments to the Specification*

The applicant requests amendment of paragraph [0015] as follows:

[0015] The head 30 has a annular plate 50 and a tapered protrusion 32. See FIGS. 1-9. The tapered protrusion 32 is hollow and forms a head recess 34 on the underside of the head. See FIGS. 7, 8, and 9. A boss 38 descends from the top of the tapered protrusion 32 into the head recess 34. See FIGS. 8 and 9. The boss 38 has a recess (~~the boss recess 37~~) within it, and within this recess a protective insert 40 may be placed. See FIGS. 1, 7, 8 and 9. This protective insert 40 may be in contact with the nut 42 or other fastener that attaches to the trimmer's threaded shaft 62 or 74. See FIGS. 1, 8 and 9.
